

IT Solutions, Inc.

Solutions That Connect

Solutions That Connect

IT Solutions, Inc. is an Indianapolis based technology service provider specializing in affordable technology integration and support services. From small companies with a few computers, to mid-sized companies with multiple servers and hundreds of desktops, we assist our customers with all sorts of technical consulting needs.

As trusted industry experts in their respective fields, the staff at IT Solutions, Inc. all share a common foundation of finding balance between business and technology. We understand that each business is unique and we work hard to implement solutions that fit the needs of your business. IT Solutions, Inc. is committed to the long term growth and development of your business and we look forward to partnering with you.

Our team is comprised of IT experts with over 50 years of experience in creating innovative IT solutions and complex IT environments. Computers need people. And the better qualified those people are to plan, implement, optimize, and manage information technology systems, the more efficiently a business runs. The project engineers at IT Solutions, Inc. understand this connection.

Whether you need our IT services on a one-time project basis, or are looking to augment your current staff with one of our IT professionals, IT Solutions, Inc. will have a solution that will meet both your short term budget and long-term business goals. "Solutions that connect" is more than our motto, it's our business!
